

Hospital Confinement Indemnity Insurance

Hospital confinement indemnity insurance provides a lump-sum benefit for a covered hospital confinement or covered outpatient surgery to help offset the gaps caused by costs that aren't covered by most major medical plans. In addition, this type of coverage can help you with a soft landing if you need to move to a major medical plan that has higher out-of-pocket costs.

You can gain valuable coverage to help pay for:

- Diagnostic tests
- Doctor appointments
- Emergency rooms tests
- Other hospital expenses

With this coverage, you get help with high deductibles and co-pays.

Please call the Colonial National Call Center at 1-833-703-1967 and use the access account # 4083606 to enroll, change, or terminate your insurance.
