Colonial Life.

Cancer Insurance

With Colonial Life's Cancer Insurance, you can help offset the out-of-pocket medical expenses and indirect, non-medical costs related to cancer that most medical plans don't cover. Benefits are available from initial diagnosis through recovery and can be used to help with:

- Loss of income
- Child care
- Lodging and meals
- Deductibles and co-pays

Colonial cancer coverage also provides a benefit for specified cancer-screening tests, which can help you proactively monitor your health.

Please call the Colonial National Call Center at 1-833-703-1967 and use the access account # 4083606 to enroll, change, or terminate your insurance.
