Emphasis in Management: Entrepreneurial Management	Percentage of Graduates	2%
Emphasis in Management: General Management	Percentage of Graduates	67%
Emphasis in Management: Human Resource Management	Percentage of Graduates	8%
Emphasis in Management: Lean Systems Management	Percentage of Graduates	0%

Indicators Used

INDICATOR	DESCRIPTION AND HOW IT WAS CALCULATED
6-year Graduation Rate	6-year graduation rate for students who graduated in 2017-2018 or earlier (Fall 2012 cohort). Percentage was calculated as the total BA graduates in business (as of the summer of 2018) from the Fall 2012 cohort divided by the total number of declared business majors entering in the Fall 2012 cohort.
Percentage of Graduates	Of the 48 students who graduated with the BA Business Administration degree in 2017-2018, this shows the percentage who graduated in each emphasis area. The percentage was calculated as the number of graduates in the emphasis area divided by the total number of graduates (48) for the year.
