Emphasis in Management: Entrepreneurial Management	Percentage of Graduates	0%
Emphasis in Management: General Management	Percentage of Graduates	57%
Emphasis in Management: Human Resource Management	Percentage of Graduates	9%

**Indicators Used**

INDICATOR	DESCRIPTION AND HOW IT WAS CALCULATED
6-year Graduation Rate	6-year graduation rate for students who graduated in 2020-2021 or earlier (Fall 2015 cohort). Percentage was calculated as the total BA graduates in business (as of the summer of 2021) from the Fall 2015 cohort divided by the total number of declared business majors entering in the Fall 2015 cohort.
Percentage of Graduates	Of the 35 students who graduated with the BA Business Administration degree in 2020-2021, this shows the percentage who graduated in each emphasis area. The percentage was calculated as the number of graduates in the emphasis area divided by the total number of graduates for the year.
